

## ***E-MAIL FOR IUL ALLOCATIONS***

**SUBJECT:** Want an IUL Index Allocation tool?

Do you sell IUL's? When you get to the page in the application where you have to guide the client to make the best allocation selections, how do you do it? Are you guessing? What data do you have to back up your guess? Our guess is you don't have accurate hard data. Now you can! The attached report will do just that. It will chart the past performance of each crediting method available in an IUL. Call us today to have us run this report for your next IUL sale!
