

E-MAIL FOR MARKET COMPARISONS

SUBJECT: How do FIA's compare to the actual market?

Have we all forgotten how powerful downside protection is? Take a look at the attached report that compares an FIA crediting method to the movement of the S&P 500. Serious investors will take notice that even though the FIA is not better, it is still pretty good considering there is ***NO RISK!*** We can run this report for you comparing your favorite FIA crediting strategy.
